Physical, Speech and Occupational Therapy for Children

Laura Hotz, OTR/L

In 2001 Laura Hotz graduated from the University of Kansas with a Bachelors of Occupational Science. She continued on to receive a Masters of Occupational Therapy in 2004 also from the University of Kansas.

As an occupational therapist, I love taking on the responsibility of understanding the challenges facing a child and his family and using my background and skills to enable them to thrive in all of their environments. I feel honored when a family invites me into their world and allows me to offer suggestions to ease their struggles. It is a wonderful feeling knowing I am impacting the future of a child and his family.
